

DOWNRITEBALD CATTERY ADOPTION CONTRACT (RESCUE)

Why We Use a Contract:

A contract not only protects you as the purchaser and DownriteBald as the seller, it more importantly protects the adopted kitten. Agreements between all parties help prevent problems that may arise due to misinterpreted assumptions. In addition, the TICA ethical breeder program requires that a contract is signed whenever a kitten is sold. DownriteBald Cattery is a TICA and CFA registered cattery. This contract is designed to protect all parties involved in the adoption of a kitten/cat from DownriteBald Cattery. The contract not only serves as a legally binding agreement between the purchaser and seller, but also as a promise of ethical and humane treatment for a living animal.

BALANCE DUE: _____

PLEASE NOTE: It is understood that degrees in hairlessness in Sphynx vary from cat to cat and that NO feline is completely hairless. Furthermore, it is understood that hormones and genetics play an important role in hairlessness and that even though a Sphynx kitten may be almost hairless when sold, it is possible that said kitten could develop some hair after being neutered/spayed, or as it grows older. It is impossible to guarantee that any Sphynx cat or kitten will not grow some hair at some point in the future.

PURCHASER REQUIREMENTS

You are purchasing a most unique and lovable creature. At DownriteBald Cattery, we put our kitten's/cat's needs first and we wish for you to do the same. As the purchaser, you agree to the following:

- Kitten/Cat comes **WITHOUT** a health guarantee. We suggest the Kitten/Cat visit your veterinarian within 5 business days of arrival. Under NO circumstances is the Seller liable for any veterinarian bills.
- Kitten/Cat will receive booster vaccinations, yearly health examinations and any procedures and/or treatments as recommended by your veterinarian.
- Kitten/Cat will be supplied with fresh water and dry food at all times. Sphynx do tend to eat more often than cats with a fur coat.
- A monthly bath is highly recommended, as well as regular ear cleaning, and toe/claw cleaning. Sphynx produce skin oil that, if left unattended, could cause skin issues and ear infections.
- We highly recommend NOT declawing. PLEASE understand that declawing is not a simple clipping of the nail or claw, it is an AMPUTATION OF THE FIRST JOINT. Weekly or bi-weekly nail clipping and the availability of a scratching post should eliminate most scratching problems.
- Kitten/Cat will not be given or sold to any pet store, given or sold to a research laboratory, given or surrendered to an animal shelter or rescue shelter, or abandoned under any circumstances. If you find that you are no longer able to care for the kitten/cat, the Seller will be contacted first in order to help find a suitable home.
- Kitten/cat should not be allowed outside unless on a leash. Remember that dangerous organisms can live on sidewalks, grasses, etc. Sphynx are also temperature sensitive and can sunburn easily.
- All deposits are non-refundable. If, however, the kitten/cat should die before the purchaser picks up his/her kitten, any money already paid/deposited, and only these payments, shall be returned to the purchaser.
- If Kitten/Cat is to be shipped, purchaser is responsible for all shipping/insurance costs.
- Transfer of ownership of Kitten/Cat and all responsibilities of said Kitten/Cat occur as soon as the Kitten/Cat leaves our cattery.

SELLER'S AGREEMENT

The Seller agrees to the following:

- Kitten/Cat has been raised with freedom to roam within the house. Cages are not used.
- Kitten/Cat has never been abused or neglected - i.e., left without water or food, while under the care of DownriteBald Cattery.
- Kitten/Cat's health maintenance record will be provided to the purchaser. The maintenance will include up-to-date vaccinations, de-worming, and Feline Leukemia testing. The kittens will be spayed or neutered before leaving our home. Veterinarians have found spay/neuter procedures can be performed safely at an early age.
- Kitten/Cat will have up-to-date vaccinations. Due to the controversy of the FIP and FeLV vaccines, we do not participate in the use of them. PLEASE DO NOT use the FIP vaccine as it is a live vaccine and has been known to kill kittens.

Purchaser and Seller signatures indicate full agreement and approval of all of the above terms and conditions of this contract.
